Enhance your Zentro internet experience, download the ZentrolQ Wi-Fi app now!

STEP 1

Scan the QR code.

STEP 2

Select the appropriate App store.

STEP 3

Download the App!

For detailed App setup instructions, review the ZentrolQ App quick start guide.

Enlightening Fast Internet

Quick Start Guide: Setting up your Wi-Fi and App

1 Download the app; search either the Apple App Store or Google Play Store for: 'ZentroIQ™', then install it on your mobile device.

4 If your system is plugged in and connected select "Yes" to continue.

Note:

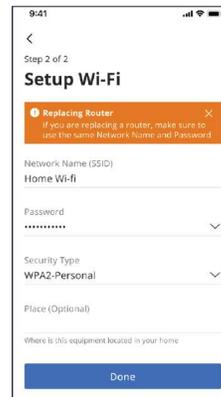

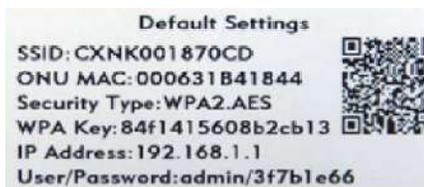

Please wait at least 10 minutes after your BLAST System has been 'turned up' before attempting step 4.

2 Select "SIGN UP" at the bottom of the screen.

5 Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera). Point your camera at the QR Code found on the bottom of your GigaSpire BLAST System, or on the sticker that came in your box (example shown below). Select OK. After you select "Submit", you may be asked to enter your account number.

3 Enter your personal information. The password you enter here will be used to access the app.

Note:

If your system is already operating with Wi-Fi, tap the "Click here to skip" text. If not connected, complete the following steps to set-up your Wi-Fi network:

- Name your network.
- Create a router name (Use throughout the app).
- The Network Name (SSID) is what you will use as your wireless connection name.
- Select a password for your wireless network, if you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router.

Click Submit and you're all done!
